 - bed and breakfast type environments.out of reach of children.

INSTRUCTION FOR USE

Assembling

1. Press the fasten button, hold the head and insert it into the inlet when inserting please pay attention the head must be slanted as per arrow indicated on the top, see (fig.1), then move the head anticlockwise so that the head being fastened tightly. (fig.2)
2. Place the snake into the head, long end first, and turn to feed the screw slightly until it is set into the motor housing (fig.3).
3. Place the cutting blade onto the snake shaft with the blade facing the front as illustrated (fig.4).If it is not fitted properly meat will not be grinded.
4. Place the desired cutting plate next to the cutting blade, fitting protrusions in the slot (fig.5).
5. Support or press the center of the cutting plate with one finger then screw

- the fixing ring tight with another hand (fig.6). Do not over tighten.
6. Place the hopper plate on the head and fix it into position.
 7. Locate the unit on a firm place.
 8. The air passage at the bottom and the side of the motor housing should be kept free and not blocked.

Mincer

1. Insert the worm shaft into the cutter housing, the plastic end first. Place the cutter unit onto the worm shaft. (The cutting edges should be at the front) Place the medium grinding disc or coarse grinding disc (depending on the consistency you prefer) onto the worm shaft. (Make sure the notch of the grinding disc fit onto the projections of the mincer head.) Turn the screw ring in the direction of the arrow on the cutter housing until it is properly fastened.
2. Attach the cutter housing to the motor unit.
3. Place the tray on the upright part of the cutter housing.
4. Now the appliance is ready for mincing.

Cut the meat into 10cm-long, 2cm-thick strips. Remove bones, pieces of gristle and sinews as much as possible. (Never use frozen meat!)

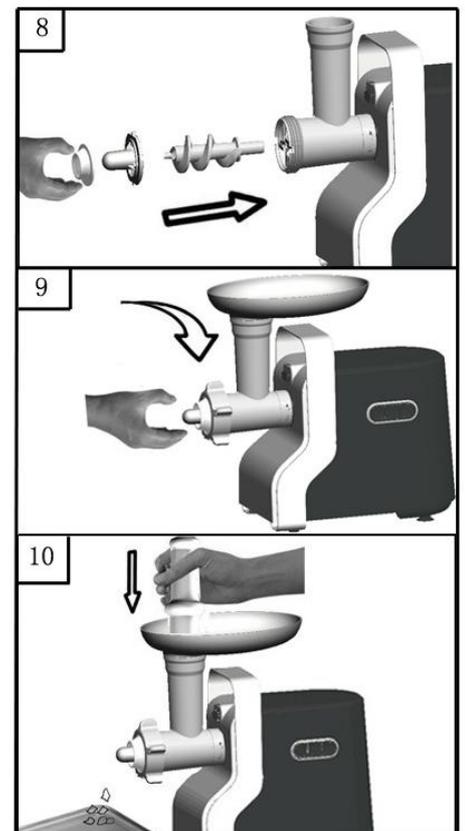

Put the meat in the tray. Use the pusher to gently push the meat into the cutter housing. (For steak tartare, mince the meat with the medium grinding disc twice.)

Making kebbe

1. Insert the worm shaft into the cutter housing, the plastic end first.(fig.8)Place the cone in the cutter housing.
Place the former on the cutter housing and screw The ring on the cutter housing(fig.9)
2. Attach the cutter housing to the motor unit.
3. Place the tray on the upright part of the cutter housing.
4. Now the appliance is ready for making kebbe.(fig.10)

Feed the prepared kebbe mixture through the kebbe maker
Cut the continuous hollow cylinder into the desired lengths
and user as required.

Kebbe is a traditional Middle Eastern dish made primarily of lamp and bulgur wheat which are minced together to form a paste the mixture is extruded through the kebbe maker and cut into short lengths . The tubes can then be stuffed with a minced meat mixture, the ends pinched together and then deep fried.

Making sausages

1. Mince the meat
Insert the worm shaft into the cutter housing, the plastic end first.(fig.11)
Place the separator in the cutter housing.
Place the sausage horn on the cutter housing and screw the ring on the cutter housing.
(Make sure the notches of the separator fit onto the projections of the mincer head.)
2. Attach the cutter housing to the motor unit.

3. Place the tray on the upright part of the cutter housing.
4. Now the appliance is ready for making sausages.

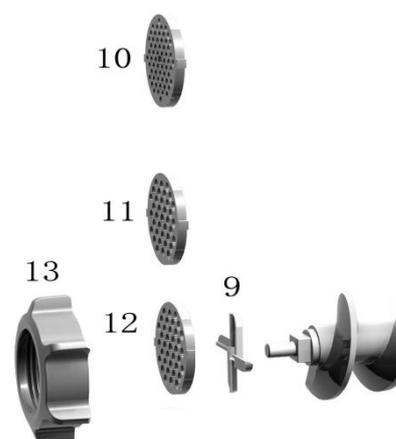

Put the ingredients in the tray. Use the pusher to gently push the meat into the cutter housing.

Put the sausage skin in lukewarm water for 10 minutes. Then slide the wet skin onto the sausage horn. Push the (seasoned) minced meat into the cutter housing. If the skin gets stuck onto the sausage horn, wet it with some water.

Making noodle

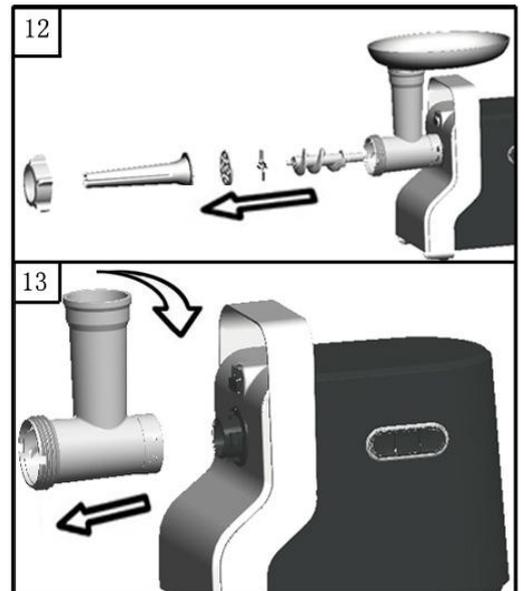

1. Operation time shall NOT exceed 4 minutes.
2. use cutting plate 10 or 11 or 12.
3. fill the tray with flour continually.

HOW TO CLEAN YOUR APPLIANCES

Meat left behind in the cutter housing may be removed from the inside of the appliance by passing a slice of bread through the cutter housing.

1. Before you clean the appliance, switch the appliance off and remove the plug from the socket.(fig.12)
2. Press the release button and turn the whole cutter housing in the direction of the arrow. Remove the pusher and the tray.(fig.13)
3. Unscrew the screw ring and remove all parts of the cutter housing. Do not clean the parts in the dishwasher!
4. Wash all parts that have come into contact with meat in hot soapy water. Clean them immediately after use.
5. Rinse them with clear hot water and dry them immediately.
6. We advise you to lubricate the cutter unit and the grinding discs with some vegetable oil.

Disposal of appliances and batteries

After the implementation of the European Directive 2002/96/EU in the national legal system, the following applies:

Electrical and electronic devices may not be disposed of with domestic waste. Consumers are obliged by law to return electrical and electronic devices at the end of their service lives to the public collecting points set up for this purpose or point of sale. Details to this are defined by the national law of the respective country. This symbol on the product, the instruction manual or the package indicates that a product is subject to these regulations. By recycling, reusing the materials or other forms of utilising old devices, you are making an important contribution to protecting our environment.
